Summary

Computer Science and Engineering graduate with hands-on experience in Python, C, PHP, and Machine Learning. Skilled in building web applications and AI-powered solutions, with a strong foundation in software development, data-driven problem-solving, and scalable application design.

Technical Skills

Programming:	Python, C, PHP
Database:	MySQL
Web:	React.js, HTML, CSS, JavaScript
Tools:	LaTeX, Git, GitHub, VS Code
Soft Skills:	Problem-Solving, Analytical Thinking, Teamwork, Adaptability

Experience

Python Full-Stack Development Trainee | *Stackup, Trivandrum* **Aug 2026 – Present**

- Developing practical skills in Python, web development, and database technologies.
- Building full-stack applications through hands-on projects, applying Python and web development concepts.

AI/ML Intern | *ICT Academy of Kerala, Trivandrum* **Jun 2025 – Jul 2025**

- Completed a one-month internship in Artificial Intelligence and Machine Learning.
- Developed a sales forecasting application using historical sales data and machine learning models to predict retail sales.

Projects

AI-Based Cataract Detection System | *Python, Flask, PyTorch, OpenCV* **Apr 2026**

- Developed a deep learning-based cataract detection system using DenseNet169 to classify Fundus and Slit-Lamp images, applying image preprocessing techniques such as resizing, Gaussian Blur, CLAHE, and normalization.
- Built a Flask-based web application for cataract classification, achieving 82% accuracy on Fundus images and 98% on Slit-Lamp images, with image upload and prediction confidence visualization.

Wayfarer – Tourism Management System | *PHP, MySQL, JavaScript, Bootstrap* **Mar 2026**

- Developed a full-stack tourism management platform featuring tour package discovery, traveler registration, online booking, and reservation tracking with PHP and MySQL.
- Implemented an admin dashboard for managing tour packages, approving bookings, handling customer inquiries, and resolving support tickets, with session-based authentication and PDO prepared statements.

AI-Powered Resume Builder & ATS Matcher | *Next.js, Python, FastAPI, Supabase* **Feb 2026**

- Developed a full-stack AI-powered platform for creating professional, ATS-friendly resumes with PDF export, ATS analysis, and job description matching.
- Integrated Groq API (Llama 3.3 70B) to identify missing keywords, generate job-match scores, analyze resume content, and provide AI-driven optimization suggestions.

Education

B.Tech in Computer Science and Engineering **2022 – 2026**

APJ Abdul Kalam Technological University | CGPA: 7.87/10

Higher Secondary Education **2020 – 2022**

Kerala State Board | Score: 93.6%

Leadership / Extracurricular

Department Technical Lead | *Carmel College of Engineering and Technology* **Jul 2025 – Feb 2026**

- Led the technical team in organizing departmental tech fests featuring 5+ events, coordinating event execution and technical activities.
- Coordinated and volunteered in technical workshops on Figma, LaTeX, and Git, supporting hands-on learning and knowledge sharing among students.

Certifications

Infosys — *Python Foundation Certification* **Aug 2025**

NPTEL — *The Joy of Computing using Python (Elite Rank)* **Apr 2024**
